See a \$90,000 Flower Arrangement

No tabletop was the same at the Partnership With Children's Gala at [583 Park Avenue](#) on April 16. The New York event had tables designed by 15 fashion and interior designers, including Paula and Martha L.L.C. For its attention-grabbing tabletop, the interior design firm used a \$90,000 sculpture of pink roses as a centerpiece. Made of materials including plaster, paint, and aluminum mesh, the larger-than-life flowers were created by artist Will Ryman and were on loan for the evening.
